

Steven Meeks

336-312-9659 → stevenmeeks21@gmail.com → [LinkedIn](#)

Data science graduate with a background in psychology and intelligence analysis. Skilled in leveraging data to generate insights, support decision-making, and translate complex analyses into actionable recommendations.

→ **Programming & Tools:** Python, R, SQL, Tableau, Power BI, Git, AWS, GCP, Microsoft Office

→ **Key Concepts:** Machine Learning, Time Series, NLP, Optimization, Data Visualization

EDUCATION

MS in Analytics

May 2026

Institute for Advanced Analytics, NC State University, Raleigh, NC

- **Master's Coursework:** Statistics, Machine Learning, Time Series, Optimization, Financial Analytics, Marketing Analytics, Text Analytics, Survival Analysis, Cloud Computing, Agentic AI

BA in Psychology & Peace, War, and Defense (Minor in Data Science), *with distinction*

May 2024

University of North Carolina at Chapel Hill, Chapel Hill, NC

PROJECTS

Primrose Schools Analytics Practicum

- Extensive eight-month analytics project for Primrose Schools, using Python and SQL to analyze historic geographic and internal sponsor datasets via panel regression and time series analysis.
- Identified geographic predictors of franchise success and forecasted long-term neighborhood favorability.
- Built a Tableau dashboard to visualize geographic trends and support franchise expansion decisions.

Customer Propensity Modeling

- Optimized targeted marketing by comparing XGBoost, neural network, and logistic regression models to predict annuity purchase propensity, utilizing AUC for model selection and lift to quantify business impact.

Credit Risk Scorecard

- Built a credit risk score model in Python utilizing weight-of-evidence binning, reject inference, and scorecard scaling to predict customer default risk and optimize score cutoffs to balance profit and default rate.

Stack Overflow NLP Topic Modeling

- Analyzed longitudinal Stack Overflow trends by building a Python/spaCy NLP pipeline and LDA model to identify topics, utilizing topic aggregation and cosine similarity to track conceptual shifts over time.

WORK EXPERIENCE

Bank of America | Threat Intelligence Analyst

Charlotte, NC | Sep 2024 - June 2025

- Authored time-sensitive crisis reports to mitigate risks to employees and operations during threat incidents.
- Aggregated internal ATM crime data to support intelligence sharing with bank and law enforcement partners.

NetApp | Global Safety and Security Intern

Durham, NC | Jun 2023 - Sep 2023

- Quantified natural hazard risk by merging internal personnel data with FEMA NRI datasets using SQL.
- Built a Power BI dashboard and reference guide to visualize risk exposure and support continuity planning.

RESEARCH EXPERIENCE

UNC-Propaganda Research Team | Research Assistant

Chapel Hill, NC | May 2022—May 2024

- Analyzed visual propaganda quantitatively using a framework of messaging and media production measures.
- Co-authored a publication in Military Review and briefed the 96th Civil Affairs Battalion at Fort Bragg.

ExTrac | Research Assistant

Chapel Hill, NC | May 2022—May 2023

- Prepared structured training data for a global threat analysis AI platform.
- Labeled and validated over 2,500 threat reports for machine learning input and knowledge discovery.
